Experience

- I have a year working as ASP.NET developer at 5 Stars Software Solution. I have joined three projects, language use is ASP/C#.
- SCC and DMS5 projects: projects manage about sale, stock, salesman, customer, distributor... In two projects I learn very much thing about sale business and write many relate report.
- CP-SMS project: Project manages about creating and sending SMS to multiple customer or salesman. SMS content is about salesman salary or promotion for customer.
- Beside three projects in company, I have an application develop by myself. It name is Renamemer. It use to rename multiple files at the same time. I write it by c# (windows platform) .Use this application we can rename file to lower, UPPER, First Upper...; find and replace in file name; and many of other functions. My application have a special feature not in other rename software, this is remove Viet Nam character in file name.
